

# ***SAVE OUR PARK ALONG THE RIVER***

Essex County promised Ironbound that the land along the Passaic River, across from Brill St., would become a County Park (Riverfront Park) to help provide the recreation space which Ironbound so desperately needs for its children and families. The County has funds in its budget for this purpose. Now a developer is going to the Newark Zoning Board with an application to build 90 3-story townhouses on that land. *Do we need more park space for our children and families? Or more homes?*

If you care about having space for our children to play, JOIN US AT THE ZONING BOARD:
